WORK EXPERIENCE

Full Stack Developer

Wow Desarrollos — Barranquilla, Colombia (Remote) | 2026 – Present

- Design and develop complete web applications using React, Node.js, Express, and PostgreSQL.
- Implemented secure authentication with JWT and RESTful APIs with protected CRUD operations.
- Build modern, responsive interfaces with Tailwind CSS and external API consumption.
- Managed version control with Git/GitHub and deployment in development environments.
- Collaborate as a team under agile methodologies with iterative deliveries and code reviews.

Customer Protection Team

Sutherland — Barranquilla, Colombia | 2025 – 2026

- Analyzed transaction patterns to identify risks such as account takeovers, fraud, and unusual behavior.
- Managed identity verification measures ensuring compliance with international anti-money laundering regulations.
- Protected user assets through timely review and escalation of suspicious cases.

Associate Account Manager

Sutherland — Barranquilla, Colombia | 2023 – 2025

- Provided technical support to clients around the world in English and Spanish regarding international transfers.
- Managed cases using CRM platforms (Salesforce), Slack, and digital tools in high-demand environments.
- Developed effective communication skills and attention to detail with global clients.

Product Manager

Winby — Barranquilla, Colombia | 2020 – 2022

- Led end-to-end software projects coordinating development, design, and QA teams.
- Planned sprints, managed schedules, resources, and budget under Scrum/Kanban methodologies.
- Produced technical documentation and progress reports presented to business stakeholders.
- Ensured client satisfaction and alignment of deliverables with organizational goals.

EDUCATION

Computer Engineering — Universidad Reformada | In progress (9th semester)
